

At the Lansing Farmers Market, you will find a variety of locally grown and crafted goods. There are also community services which are there to engage with the locals to raise awareness of their offerings in town. Some of what you will find are: organically grown produce, local honey, pure maple syrup, fresh eggs, hand-made t-shirts, batiks (handbags), Ashe County veterans' services, cute animals, animal treats, and hopefully an ever-growing variety of other goods and services as the market develops. Our market will take place along the scenic Big Horse Creek in historic downtown Lansing at the Creeper Trail Park. In 2021, we will begin our season on Friday April 23rd from 1pm - 5pm and will continue to do so every Friday until cold weather sets in sometime in fall. All new local vendors are encouraged to join us without the need to schedule at any time. We enthusiastically welcome new vendors to simply show up or contact the market manager, Justin Sosnowski, at justinsosnowski@gmail.com or 336-384-1080 or 336-877-7177. Drop on by and be aware that some of us show up early or stay late from time to time!"
